

Electronic Disclosure of Presentence Report

Presentence reports will now be emailed to the defense attorney of record. In order to ensure confidentiality, the reports are encrypted and secured with a password. As the attorney of record, you will receive an initial email from the crtreferral@miep.uscourts.gov mailbox with instructions detailing how to gain access to the presentence report and/or addendum.

Upon receiving the security password, the password can either be typed or copied and pasted into the password field. Please keep in mind, when copying the security password make sure an extra space was not copied with the password. If an extra space, either before or after the password, was copied with the password, you will receive an “invalid password” message. Please recopy the password, without the extra space(s).

Additionally, the addendum due date will still adhere to the process currently in place when mailing the reports via U.S. Mail.

To prevent this email from landing in your spam and/or junk folder, please add the following email address (crtreferral@miep.uscourts.gov) to your contact list.
